DIRECTIONS FOR USE

H.D.D. can be diluted up to 100:1 with water. Add H.D.D. to clean water to the desired strength and allow the solution to react with the surface for maximum efficiency without allowing the surface to dry. Rinse well with clean water to remove solution. Final rinse with STONE SOAP™ is recommended prior to sealing. Do not use on Sensitive/ Polished surfaces.

Light Duty: Dilute 1 part H.D.D. to 10 parts water
 Medium Duty: Dilute 1 part H.D.D. to 6 parts water
 Heavy Duty: Dilute 1 part H.D.D. to 4 parts water.
 Very heavy soiling: Use undiluted
 Pressure Washers: Dilute 1 part H.D.D. to 100 parts water.

Always do a test first in an inconspicuous area to ensure suitability and satisfactory results.

SAFETY NOTES

For more specific and further information regarding the handling of this product, please refer to the Safety Data Sheet.

CLEAN UP
